CLAIMS

What is claimed is:

1-25 Cancelled.

26. (Currently Amended) A method of using standardized U.S.-dimensioned form-work panels in making a standardized metric-dimensioned building member, the method comprising:

selecting a conversion corner bracket, the bracket ~~selected for use~~ having a bracket body having an outer surface configured to impart a shape to the building member, to be used with a plurality of standardized U.S.-dimensioned form-work panels; and

using the ~~plurality of U.S.-dimensioned form-work panels in making a metric-dimensioned building member by using~~ conversion corner bracket, by disposing the conversion corner bracket selected for use with between at least two of the plurality of standardized U.S.-dimensioned form-work panels, such that the bracket body outer surface contacts the at least two form-work panels, to make a standardized metric-dimensioned building member.

Claims 27-28 Cancelled

29. (Currently Amended) The method of Claim 26 wherein the using further comprises connecting the conversion corner bracket body with the plurality of standardized U.S.-dimensioned form-work panels.

Claim 30 Cancelled.

31. (Currently Amended) A method of using standardized metric-dimensioned form-work panels in making a standardized U.S.-dimensioned building member, the method comprising:

MKE/1059092.1

selecting a conversion corner bracket, the bracket ~~selected for use~~having a bracket body having an outer surface configured to impart a shape to the building member, to be used with a plurality of standardized metric-dimensioned form-work panels; and

using the ~~plurality of metric-dimensioned form-work panels in making a U.S.-dimensioned building member by using~~conversion corner bracket, by disposing the conversion corner bracket selected for use withbetween the at least two of the plurality of metric-dimensioned form-work panels, such that the bracket body outer surface contacts the at least two form-work panels, to make a standardized U.S.-dimensioned building member.

Claims 32-33 Cancelled

34. (Currently Amended) The method of Claim 31 wherein the using further comprises connecting the conversion corner bracket body with the plurality of standardized metric-dimensioned form-work panels.

Claims 35-39 Cancelled.
